

Dear Scientists, Doctoral Students, Postgraduates, Teachers and Applicants for higher education!

We invite you to take part (to participate) in the International Scientific and Practical Internet Conference 2022.

"Innovative technologies for the development and efficiency of road transport"

**Central Ukrainian National Technical University
Ministry of Education and Science of Ukraine
November 17-19, 2022**

Purpose of the conference: highlighting the most urgent topical issues of increasing the efficiency of road transport operation and finding the best ways to solve them by developing and implementing modern innovative technologies in production, sharing research and practical experience, publishing the results of scientific research.

Representatives of business in the field of motor transport, employees of transport enterprises, technical service are also invited to participate in the conference.

The main directions of the conference:

- modern and perspective designs means of transport;
- development of technologies of maintenance, service and repair means of transport;
- improvement of technologies of transport processes and road safety;
- increase of reliability of functioning means of transport and automobile transport enterprises;
- regulatory and legislative support for the efficiency of the operation and development of road transport;
- economy and organization of road transport operation, market of transport services;
- automation of control processes and modern information technologies in road transport;
- "green" (eco) transport and promising methods of reducing the ecological load of road transport on the environment;
- improvement and use of new structural and operational materials in the vehicles' life cycles;
- intelligent transport systems;
- integrated logistics systems for supporting the vehicles' life cycle and transport infrastructure;
- agro-logistics;
- logistics of transport and production enterprises;
- improving the quality of training of specialists in the specialty 274 "Road Transport" and 275.03 Transport technologies (road transport).

Official languages of the conference: Ukrainian, English.

Form of participation: remote.

CONDITIONS OF PARTICIPATION:

Participation in the International Scientific and Practical Conference and publication of the authors' materials is **FREE**.

By November 19, 2022 (inclusive), it is necessary to send the topics of the reports to the e-mail address of the organizing committee konf.erm.cntu@gmail.com, and the materials themselves:

- **a file with scientific materials** (the name of the file should be signed according to the first two names and initials of the participants of the conference (**the total number of authors in one scientific materials is not more than 7**) and should contain "NMIC_2022");

- **filled in information about the authors and information for publication in the repository of the CNTU by the editorial board** (submitted in the same file with scientific materials at the end of the document) until December 5, 2022.

An electronic version of the collection of scientific materials will be sent to the participants at the conclusion of the conference at the e-mail address provided by the authors in the application.

Organizing Committee Address:

Ukraine, Kropyvnytskyi, University Avenue (University prospect) 8, 025006, Chair of Machine's Exploitation and Repair, Faculty of Building and Transport, Central Ukrainian National Technical University.

REQUIREMENTS TO EXECUTION OF SCIENTIFIC MATERIALS:

1. Scientific materials should not be less than two pages of printed text on A4 sheets, typed in MS Word.

2. Fields: upper, lower, right, left - 2 cm.

3. Typeface of all text of scientific materials: Times New Roman, size 14, line spacing 1, Indent of the first line of the paragraph 1.25 cm, alignment of the text in width.

4. UDC is located above the name of scientific materials, text alignment on the left edge. The name of the scientific materials is printed in the center of the page in capital letters, in bold. The name in the center is the name and initials (in bold), academic degree, academic title. The name of the organization (not bold) (the institution) where the author (co-author) works is printed below. After the organization where the last author works, one line is skipped. The main text of scientific materials is presented in the following structure: **Abstract and Keywords** (English only); **Introduction** (urgency) (bold, centered); **Analysis of previous studies** (in the last **15** years) (bold, center); **Purpose and tasks** (bold, centered); **The results of solving the main problems of the problem** (bold, centered); **Conclusions** (bold, center); **References** (last **15** years) (bold, center). The text of each paragraph is outlined in the basic material requirements.

5. Formulas are executed using the MS Equation editor, and tables and figures are integrated into the body of a text document. The names of formulas, figures, tables are numbered by reference. References in the text to figures, tables, formulas are in brackets and the abbreviated names and corresponding number (Fig. 1), (Table 1), (Form 1) are entered. Formulas have, in the middle, ciphers and sizes of Times New Roman formulas, size (size) 14. The numbering of formulas is in parentheses opposite the formula on the right side by the corresponding reference number. The tables are signed above the table, the indent of the first paragraph of the paragraph is 1.25 cm, the alignment is wide, the font is bold (Example **Table 1 Table name**). The signature of the drawings is made under the drawing, the indent of the first line of the paragraph is 1.25 cm, the alignment is wide, the bold font (Example **Figure 1 Title of the figure**), below after the title of the drawing without indentation, the alignment is not bold, the designations of the drawing,

if available.

6. Used literature (for the last 15 years) (without repetition) is made out at the end of the text under the name "**References**" (bold, center of page). In the text, the links are indicated by square brackets indicating the order number of the source in the list. The references is framed accordingly to DSTU 8302: 2015. Another way of designing used literature is not allowed.

Scientific materials are non-editable, so they must be carefully prepared.

The authors are responsible for the enlightened content and authenticity of scientific materials.

For students, scientific materials that are submitted alone should have the recommendation of the supervisor.

WE ARE LOOKING FOR YOUR PARTICIPATION IN INTERNATIONAL SCIENTIFIC PRACTICAL INTERNET CONFERENCE!
